Notice Concerning Change of Market Category to Tokyo Stock Exchange Prime Market

AZOOM CO.,LTD (the “Company”) hereby announces that the market category of the Company’s shares has changed from the Tokyo Stock Exchange Growth Market to the Tokyo Stock Exchange Prime Market today.

This is entirely the result of the support from shareholders and many other relevant parties who have supported the Company, and we would like to express our appreciation.

Since our founding, the Company has valued “Real Estate x IT” and has used the power of IT to solve the problem of idle real estate. While continuing to focus on the monthly parking lot subleasing business, the Company will develop business not restricted to real estate, under the broader concept of addressing “Mottainai”^(*) idle assets that are not in effective use or not generating revenue. Through the Company’s “Manpower x Speed x Technology,” the Company will strive to optimize everything in the world with the spirit of “Mottainai” and continue aiming for further enhancement of its corporate value.

*“Mottainai” is a term of Japanese that conveys a sense of regret over waste and encourages people to “reduce, reuse and recycle.”

The Company will utilize this change to the Tokyo Stock Exchange Prime Market as an opportunity to attract an even wider range of investors to hold our shares, and furthermore, will strive to receive even greater support by actively explaining and appealing our business and growth strategies to the capital market and stakeholders.
